ONE KIT, MANY MACHINES

# Built for every self-service business

Wherever customers pay for themselves, VendBot turns the machine into a connected, cashless point of sale.

PRIMARY

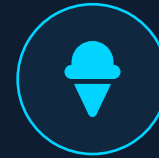

## Vending machines

Snacks, drinks & combo machines

## Coffee machines

Hot-drink & espresso self-serve

## Ice-cream & frozen

Soft-serve & frozen dispensers

## Laundromats

Self-service laundry sites

## EV charging

Pay-per-charge points

## Car wash & more

Washes, lockers, kiosks & amusement

Capture every sale

Stop cash leakage

Fewer site visits

Smarter restocking

## TOTAL CONTROL

# Your whole business, at a glance

### See what sold, when

Every transaction in real time — by machine, product, day and hour.

### Live stock levels

Know what's low and what needs restocking before you leave the depot.

### Manage prices remotely

Update pricing, products and promotions across the fleet from your desk.

### Instant alerts

Downtime, power loss or low stock — flagged the moment it happens.

### Insights & patterns

Spot best sellers, peak times and trends to grow each site's revenue.
